Benefit-Cost Analysis in Low-and Middle-Income Countries: Illustrative Case Studies and Future Research Needs

Lisa A. Robinson and James K. Hammitt, chairs

Society for Benefit-Cost Analysis
Annual Conference and Meeting
March 2019
Benefit-Cost Analysis in Low-and Middle-Income Countries: Part 1

1. Reference Case Guidance Purpose and Goals, Damian Walker

2. Applying Benefit-Cost Analysis to Air Pollution Control in the Indian Power Sector, Maureen Cropper

3. Standardized Sensitivity Analysis in BCA: An Education Case Study, Dean Jamison

https://sites.sph.harvard.edu/bcaguidelines
Benefit-Cost Analysis in Low-and Middle-Income Countries: Part 2

1. Benefit-Cost Analysis of Community-Led Total Sanitation Campaigns: Incorporating the Results from Recent Randomized Control Trials and Other Evaluations, Mark Radin

2. Comparing the Application of CEA and BCA to Tuberculosis Control Interventions in South Africa, Anna Vassall

3. Benefit-Cost Analysis of a Package of Early Childhood Interventions to Improve Nutrition in Haiti, Brad Wong

4. Implications for Future Work, Lisa A. Robinson, Dean Jamison, and James K. Hammitt
